

NEW FROM WEBCON

Alpha specified as OE fit on Elise Duratec engine transplant.

Webcon are delighted to announce that their legendary Alpha Engine Management System has been specified as OE fitment on the new Steve Williams Sports Cars Elise Duratec engine conversion.

Heart of the conversion is a brand new Ford Duratec 2.3 engine on to which Webcon have fitted a pair of Alpha throttle bodies, custom

intake manifold, bespoke wiring harness and a state of the art Alpha PRO4 ecu.

All EMS development work has been carried out in Webcon's in house rolling road facility, to ensure the conversion offers OEM levels of Performance, Driveability and Emissions compliance.

With over 200bhp and a mountain of torque, the characteristics of the car have been dramatically enhanced to offer a truly

exhilarating driving experience
