PRESS RELEASE

For immediate release

Replacement Electric Fuel Pumps

for carburettor fuel systems

Webcon are delighted to announce the launch of two new 12v replacement electric fuel pumps for use on carburettor fuel systems. The fuel pumps will suit customers who traditionally have used the small rectangular type pumps but have found them either too noisy or too unreliable.

There are 2 pressures available:-

WFP501 Electric Fuel Pump runs at 0.34 - 0.62 BAR

WFP502 Electric Fuel Pump runs at 0.17 - 0.31 BAR

Both pumps flow at 90 to 130 litres per hour and are extremely quiet and reliable in operation. The pumps measure :Length 172mm x Diameter 54mm.

The pumps are fully sealed units with steel casings and a zinc plated and yellow passivated finish. Each pump is supplied with a mounting bracket and 'Push-On' 8mm O/D fuel pipe unions for both ends. Inlet and outlets are threaded to take the unions.

Hose clips and 2 x 100mm lengths of fuel line are also included.

RRP

WFP501 0.34 - 0.62 BAR Electric Fuel Pump **£39.78** plus vat

WFP502 0.17 - 0.31 BAR Electric Fuel Pump **£39.35** plus vat.
