

**WEBCON**

# Webcon UK Ltd

Webcon, the undisputed market leader in the design, manufacture and distribution of Performance Engine Management, Ignition and Carburation Systems and accessories, now stock Aluminium cylinder heads for British cars. Manufactured to the exacting standards expected of a Webcon product, these heads are up to 75% lighter than the original cast iron units, suffer none of the original problems and are designed to flow up to 25% more efficiently. All feature Silicon Bronze valve guides. Superlight Aluminium Cylinder Heads are available for the following engines:

Superlight Aluminium Cylinder Heads

## Austin Healey 4

Part number **WCH401** is suitable for all Healey 100/4 applications and features lead free seats And high silicone valve guides.

Combustion chamber volume is 70cc

## Austin Healey 6

Part number **WCH601** is suitable for Healey 100/6 and 3000 and is an alloy reproduction of the Works competition head. Lead free seats and high silicone guides are featured.

Combustion chamber volume is 52cc

## BMC B Series

Part number **9900384200** is a direct replacement for the standard Cast iron head, and will not crack, unlike the original. Can be used with SU or Weber carburettors. Also available with Smog ports where required.

Combustion chamber volume is 42.5cc
