

NEW FROM WEBCON

Two more fantastic new products from Webcon

Superior Quality Velocity Stack protectors

Fits	Stack O/D	Part No	RRP (GBP)
45 DCOE	63mm	5380004000	£19.54
48 IDA	70mm	5380014800	£19.54

These superb new Velocity Stack covers are custom made from top quality resilient yet pliable material to give years of service in almost any environment.

Ideal for preventing ingress of moisture, dust and other debris, the Velocity Stack covers are especially useful when working on or around the carburettors, or when the car is being stored.

They also look great, and can be fitted if your car is being displayed at a show or exhibition. Especially recommended for GT40 and Cobras using Weber 48 IDA carburettors !

Max Flow Low Profile Oil Free Mesh Filters

Fits	Stack O/D	Part No	RRP (GBP)
40 DCOE etc	57mm	AFM4056 (pr)	£29.95 (pr)
45 DCOE etc	63mm	AFM4563 (pr)	£29.95 (pr)
48 IDA etc	70mm	AFM4870 (pr)	£29.95 (pr)

If you want the legendary power of Weber carburettors, but space restrictions make it difficult to get air filters that will fit, well now Webcon have the answer.

Our superb quality Max Flow mesh filters are designed to be totally oil free, yet offer a high level of filtration for worry free racing. The only maintenance required is periodic cleaning and fitting takes a matter of seconds.

These are especially recommended for GT40 applications where space is extremely limited.

Great performance, Great looks and very competitively priced.
