APC004

£140.00

Internal  
Dia 60mm

Large Oval Universal  
L320 x W175 x H90mm

All prices  
plus VAT

## *Release the Power with the new range of High Performance Universal Replacement Catalysts from Webcon.*

Webcon are delighted to announce the launch of a range of the very highest quality Alpha Universal High Performance catalysts.

Manufactured to Webcons' legendary quality standards, and specifying only the finest Stainless Steel monoliths, (Ideal for lowered vehicles) these catalysts feature the reduced cell density of 200 cpsi against the aftermarket norm of 400 cpsi for

dramatically improved gas flow and reduced back pressure. This improved gas flow results in power gains of between 8-10% on a standard engine, with even more substantial gains achieved when used with an Air Induction kit and ECU remap. MOT compliance is assured thanks to the extra 35% precious metal coating, and all are very competitively priced.
