Disc**

**X-Flow
Trigger Disc**

Webcon Trigger Discs for EMS and Ignition Systems

Webcon are delighted to announce the introduction of a range of 36-1 Trigger Discs to suit a range of popular applications.

Part number 9990315600 is specifically designed to suit the **GM Z22SE** engine as fitted to the Vauxhall VX220 / Opel Speedster and a number of other GM vehicles.

9990291900 is specifically designed to suit the **Ford Crossflow** engine

9990240400 is a **universal**, single centre hole mounting trigger disk.

All are designed in house at Webcon and are precision laser cut from 4mm Zinc yellow passivate finished mild steel.

Manufactured to an angular tolerance of .2 degree and to within 0.2mm accuracy, the new Webcon trigger discs also feature a built in counter balance to compensate for the missing tooth and to provide perfect balance.

Webcon trigger disks are designed to work with the Alpha Engine Management and Ignition systems, but are also suitable for use with all aftermarket EMS and ignition systems.

9990315600, 9990240400 and 9990291900 are in stock for immediate shipping and are priced at **£19.95** each plus vat.

For further details of Weber/Alpha products contact Webcon UK on +44 (0)1932 787100 or visit www.webcon.co.uk
